pavanipriyasajja@gmail.com

EDUCATION

Bellevue College, Bellevue, WA — UX Design

September 2019 - PRESENT

Learning how to apply design principles to the development of web content, improve site usability, and create design documents using detailed procedures and guidelines.

Jawaharlal Nehru Technological University of Hyderabad , Hyderabad [India] — Bachelor of Technology

2011-2015

Majors with Electronics and Communication Engineering.
GPA - 3.0/4

EXPERIENCE

Freelance UX designer

January 2017 - PRESENT

As a freelance designer, designing websites and mobile app design for small sector business.

SELECTED PROJECTS

Work Tracker — Mobile App design

The product is mainly designed for the people who are spending their time with working laptop and they would like to know about their eye strain level.

Special Burger Restaurant — Responsive website design

Special burger website is designed for an entrepreneur, who wants to open a new, delivery-only establishment that delivers food (or drink) to customers living nearby. The centerpiece of the website will be an online food customization and ordering system.
